

Consider a real-life, practice scenario that presented you with a challenge or a problem? Describe the scenario in a maximum of 3-4 sentences.

What was the first thing you did after being presented with the problem? (This action may identify potential resources for students)

What was the second thing you did? (This action may identify potential resources for students)

Did you successfully overcome the challenge and/or identify a solution to the problem?

Think about the original situation. List 2-3 things you learned. (The listed items may help you connect the scenario to learning objectives)
